ABOUT NETLYNXAI LLC

NetLynxAI LLC is an **8(a) and HUBZone-certified** small business joint venture formed by iLynx and Netlogic Solutions, bringing together decades of proven federal IT expertise, innovation, and delivery excellence under a single, mission-focused organization. Built to support complex, mission-critical government programs, NetLynxAI combines the complementary strengths of both partner firms to deliver secure, scalable, and AI-driven technology solutions across civilian and defense agencies — including the Department of Labor, USDA, the U.S. House of Representatives, the Department of the Air Force, the Department of Defense (DoD), and other government organizations.

With deep expertise in digital transformation, artificial intelligence, cloud modernization, cybersecurity, enterprise applications, and data analytics, NetLynxAI gives government agencies the agility of a specialized small business backed by the experience, resources, and delivery capability of two established federal contractors.

CAPABILITY STATEMENT

NetLynxAI LLC is an 8(a) and HUBZone-certified joint venture between iLynx and Netlogic Solutions, combining decades of federal IT expertise to deliver secure, AI-driven technology solutions — from cloud modernization to cybersecurity — across civilian and defense agencies.

CORE CAPABILITIES

ARTIFICIAL INTELLIGENCE & INTELLIGENT AUTOMATION

- Generative AI solutions
- AI agents and agentic workflows
- LLMs and retrieval-augmented generation
- Machine learning and predictive analytics
- Computer vision & IDP
- Intelligent process automation (RPA)
- AI strategy, governance, and implementation

DIGITAL TRANSFORMATION & CLOUD MODERNIZATION

- Enterprise digital transformation
- Cloud migration and cloud-native solutions
- Legacy application modernization
- ERP, EPM, and HCM modernization
- Application assessment and optimization
- Low-code platforms including Appian
- Microsoft Azure and hybrid cloud
- Enterprise architecture

SOFTWARE & SYSTEMS ENGINEERING

- Agile software development
- Full software development lifecycle
- Web, mobile, and enterprise applications
- API and systems integration
- Microservices & SOA
- Performance engineering
- DevSecOps
- Application maintenance and sustainment

DATA & ANALYTICS

- Data engineering
- Data governance
- Data migration and modernization
- Business intelligence and dashboards
- Power BI analytics
- Data warehousing
- Data quality management
- Disaster recovery and business continuity

CYBERSECURITY

- Enterprise security architecture
- Risk and compliance
- Zero Trust security
- Security assessment
- Identity and access management
- Data protection
- Secure cloud operations

ENTERPRISE CONSULTING & MISSION SUPPORT

- IT strategy and roadmap
- Enterprise PMO
- Business process optimization
- Independent verification and validation (IV&V)
- IT governance and change management
- Acquisition and grants management
- Program and mission support

TECHNOLOGY EXPERTISE

TRUSTED BY GOVERNMENT & ENTERPRISE
